

The vegetation of Rocky Mountain region
Gray & Hooker. Bull. U.S. Geol. Survey
VI. (1885)

For it, I fear perhaps it
could be got by applying at
Washington. I am sorry to say
that Miss North has been
seriously ill this autumn but
we hope is now recovering.

Mr Joseph & Lady Hooker
were here this week both
very well. Mrs Shreve desires
to send her kindest regards
to you & hopes that on her

next visit to America which
we ~~shall~~ are both looking forward
to she will be able to see you

Believe me

yours very sincerely

R. J. Shreve
